

Lower Fourmile Creek Greenway Master Plan

Prepared in collaboration with Polk County Conservation, Polk County, Fourmile Creek Watershed Management Authority, City of Des Moines, City of Pleasant Hill and Polk Soil & Water Conservation District

Overview:

The public meeting is a chance to see the first glimpse of the Greenway Master Plan initiated by the Fourmile Creek Watershed Management Plan process. The plan identifies necessary steps to acquire and create a linear greenway along Fourmile Creek downstream of Interstate 80. The primary goals of the greenway are intended for flood hazard mitigation and to improve water quality. However, the plan also addresses other potential natural resource and recreational improvements the greenway can offer.

Agenda:

5:30pm Presentation: Snyder will provide an overview of the greenway master plan and answer questions.

6:00-7:00pm Open House Format: Feel free to ask questions and review the master plan in more detail with representatives from the committee and Snyder & Associates.

We want your input!

- Snyder & Associates, County and City Staff will be available to answer questions and collect your feedback.

What if I can't attend?

- Project information and the Master Plan will be available on Polk County and your City website after the public meeting for your review.

YOU'RE INVITED! PUBLIC MEETING

Tuesday
September 19

5:30-7:00 PM
ROBERT L SCOTT FOUR MILE
