

Iowa State Energy Code Statement of Review Form

State Use Only	
Date Received	_____
Acceptance #	_____

Statutory Authority: Iowa Code 103A.19 and Administrative Rule 661-303.1(3): The plans and specifications for all buildings to be constructed after July 1, 1977, and which exceed a total volume of 100,000 cubic feet of enclosed space that is heated or cooled, shall be reviewed by an Iowa registered architect or licensed engineer for compliance with applicable provisions of the 2006 International Energy Conservation Code (IECC). A statement that a review has been accomplished and that the design is in compliance with applicable provisions of the 2006 IECC shall be signed and sealed by the responsible registered architect or licensed engineer. This statement shall be filed with the State Building Code Commissioner prior to construction.

Form Purpose: This form is to be used by Iowa registered architects and licensed engineers, to show compliance with Iowa Code 103A.19 in the design of buildings which are subject to this law.

Form Instructions: The completed form is to be signed and sealed by the responsible registered architect or licensed engineer and then forwarded to the State Building Code Bureau along with a filing fee of \$15. Checks for the filing fee are to be made out to the Treasurer, State of Iowa. Properly completed forms will be assigned an acceptance number and entered into an electronic database.

Name of Building (if applicable): _____

Address of Building _____

This building is defined by Chapter 2 of the 2006 IECC as a: Commercial Building
 Residential Building

I used the following method to determine compliance with the applicable provisions of the 2006 International Energy Conservation Code:

- Comcheck (US Department of Energy)
- Rescheck (US Department of Energy)
- Prescriptive Provisions of the IECC
- Performance Provisions of the IECC

By attachment of my seal and signature, I hereby certify that I have performed a review of the plans and specifications on the above referenced building using the methodology indicated, and I find it to be in compliance with the applicable provisions of the 2006 International Energy Conservation Code.
